ABSTRACT

The federal government supports many information clearinghouses and research institutions that produce free and low-cost publications and materials that can support and enrich the work of a professional counselor. This sourcebook is designed to help tap into and take greater advantage of these resources. The sourcebook provides syntheses of current research, statistics, and research reports; background material about current and emerging policy issues; information about model programs and policies; materials and resources that may be used in school guidance and counseling programs; and educational pamphlets and brochures for the office waiting room. Topics covered include adoption; aging; AIDS/HIV; child abuse/family violence; crime; disabilities; education; employment and career development; health; mental health; smoking; substance abuse; and youth and families. For each resource, contact information and a description of the service are included. (GCP)

INTRODUCTION

The Federal government supports many information clearinghouses and research institutions that produce free and low-cost publications and materials that can support and enrich your work as a professional counselor. This sourcebook is designed to help you tap into and take greater advantage of these resources.

Here you will find:

- Syntheses of current research, statistics, and research reports
- Background material about current and emerging policy issues
- Information about model programs and policies
- Materials and resources that may be used in school guidance and counseling programs
- Educational pamphlets and brochures for your office waiting room

Most of the entities we have listed in this guide are supported by the Federal government. In a few instances, we have also included non-profit organizations that provide useful information to the public at no cost or for a nominal charge.

This sourcebook will be updated on a regular basis and we encourage you to share with us other sources of information that you think professional counselors should know about. Please contact us at (800) 347-6647, extension 354 to share your discoveries.
